

Miss Dunleavy's third class entered the Goalchangemakers Award competition following a class visit from Maeve Rafferty, Goal Education officer in November 2019. Maeve spoke to the girls about development issues and the role of the UN in encouraging a more equal society.

One of the main features of the UN's drive to create a more equal society has been the publication of the Global Goals for Sustainable Development. These goals aim to achieve a more equal society by 2030. Participants in the Goalchangemakers Award were required to take part in classroom activities exploring the meaning and relevance of these goals for our society. Following on from these activities we had to undertake meaningful actions to bring about positive change in our community.

Our class focused on the global goal 'Responsible Consumption and Production' and we designed wrapping paper out of re-cyclable brown paper. We also made notes to put into Christmas gifts informing people about the global goals.

The girls worked very hard and were thrilled to hear that they won an award in the competition. On Thursday 13<sup>th</sup> February the girls will travel to *Cool Planet Experience* in Enniskerry and are looking forward to a great day out as a reward for all their hard work.

Maith sibh, rang a trí.
