

Tuesday 16th June 2020

Literacy

- Open the attached **pdf 4 Sammy Seagull's Summer Story PowerPoint**. Go through the story with a parent or an older sibling and try to read the parts you can and get your parent/sibling to help with the rest.

After reading the story, discuss the ways we can stay safe in the sun and in the water with your parent/sibling.

- Open the attached **pdf 5 Sammy Seagull Worksheet**. Pick one of the sun and one of the water safety worksheets to complete, whichever ones you prefer.

Write and or Draw pictures of the things that keep us safe in the sun and water. See how much you can remember from the PowerPoint.

Remember your finger gap between each word!

(20 minutes)

Maths

- **Number set Hunt.**

Take out your number cards 1-10 and the number sets 1-10. Hide the number sets 1-10 around the garden or around the home. Give the number cards 1-10 to your child and ask them to find the corresponding sets and match them together.

(20 minutes)

P.E.

- **Warm up:** Open the attached **pdf 3 Name Activity**. Complete the activity for each letter of your Mums or Dads name.
- **Running:** Set yourself a distance and mark it out using chalk or a piece of clothing. Find three items of dress up clothes (hat, sunglasses, mask etc.) and place them at the end marking. Run from start point to the marking and put on a piece of clothing and run back, repeat up and back until you have put on all your dress up items and are back at your starting point.
- **Fun:** Get two buckets and a cup. Place one empty bucket at your start line, fill the second bucket, and place it at your finish line. Run with your empty cup to the finish line and fill it with water from the bucket. Run back and empty the cup of water into the empty bucket. Repeat until the bucket at the finish line is empty and the bucket at the start line is full. The challenge is not to spill too much water so that you end up with a full bucket!
