

Have you heard of Kahoot!?! Kahoot! is a really fun online game platform. It allows teachers (or anyone) to create a quiz targeted to their students learning and knowledge. The teachers can then share the Game PIN or the URL and students can play it at their own pace.

This fortnight we are delighted to include our very own Kahoot! Quiz for our Senior Infants based on their remote learning experiences from the past few weeks.

Taking part is easy... All you need to do is download the Kahoot! App. Then you click the colourful 'Enter PIN' button on the bottom of the screen, and then enter the 'Game PIN' (provided at bottom of page) into the appropriate box.

Alternatively, if using a laptop/PC, you can press and hold the Ctrl button while you click on the URL link (provided at the bottom of the page) or copy and paste the URL link into your web browser – this will bring you directly to the quiz.

Once you reach the quiz home page you will be asked for a Nickname. Can you please enter your child's first name followed by a space and then his/her teacher's initials. Eg. John CF, Mary JMcD etc.

Now you're all set. Enjoy!

Senior Infants Quiz 1
